Profile

An engineer by training, I have been running web and digital-marketing projects since 2019. I build multilingual websites designed to be found — site structure, hreflang, structured data, sitemaps, content — and to convert, with journeys that turn a visit into an enquiry. My sales background keeps me focused on what matters: attracting the right visitors and bringing them to get in touch. I work in French, Arabic and English, an asset for international SEO.

TEXTILE ENGINEERING · BUSINESS CONSULTING · DIGITAL TRANSFORMATION · INNOVATION & R&D
