Profile

A textile engineer (ENIM) who also holds a master's in mathematical engineering. I have worked at several stages of the garment value chain: production, quality control, methods, operations management, heading a textile department and product R&D. I connect technical manufacturing requirements with organisation, digital tools — production management, traceability, line balancing — and the market.

TEXTILE ENGINEERING · BUSINESS CONSULTING · DIGITAL TRANSFORMATION · INNOVATION & R&D

What I bring to this role

01 **Quality**
Quality control manager (Christine Confection, 2010–2011); trained in ISO 9001 and lean management.

02 **Production & methods**
Chief Operating Officer, COO (Kenzalou, 2014); line-balancing and defect-traceability software.

03 **Textile department**
Head of the textile department at Gharieni Group — GTIM (2015–2018).

04 **Product R&D & CAD**
DUOACCESSORIES textile accessories (2020), from pattern-making and sewing to production methods; self-taught in textile CAD (Lectra, Gerber, CLO 3D), used at Christine Confection and on freelance projects.
